

fiskaly strengthens its position as the leading VAT compliance & fiscalization provider in Europe with the acquisition of InfraSec Sweden AB

Vienna / Stockholm, 10 December 2025 – fiskaly GmbH, a leading provider of cloud-based fiscalization and VAT compliance solutions in Europe, has acquired InfraSec Sweden AB, a former wholly owned subsidiary of Swedish POS vendor Yabie AB. The transaction closing is subject to FDI approval.

The acquisition enables fiskaly to integrate a Swedish cloud-based VAT compliance solution into its fiscalization portfolio and expand its European offering. fiskaly also plans to scale its operations in Sweden, building on the acquired local expertise. fiskaly will benefit from InfraSec's expertise in Swedish VAT reporting requirements and its leading technological solution for POS providers, thereby strengthening its service offering throughout Europe.

Founded in 2019, fiskaly's services are already used at more than 1 million points of sale including cash registers. The company operates in Germany, Austria, Spain, Italy, and France. Its fiscalization solutions support over 1,600 B2B customers, including major retail chains and leading POS system providers such as orderbird, Lightspeed, SumUp, and ready2order. This marks fiskaly's second acquisition in 2025, following the earlier acquisition of DF Deutsche Fiskal GmbH in Germany.

Johannes Ferner, CEO fiskaly:

"This acquisition is a major step forward in our mission to be Europe's leading digital VAT compliance solution provider. By integrating InfraSec's proven solution into the fiskaly product suite – and making it available to a broader market, now independently of its former parent company – we're enabling even more merchants and POS providers to benefit from secure, scalable, and future-ready VAT compliance solutions. I'm incredibly proud of our team and grateful to everyone involved for their trust and collaboration. We are excited to shape the future of VAT compliance across Europe."

Continuity and Benefits for Existing InfraSec Customers

InfraSec operates the leading Swedish VAT reporting service, which is fully compliant with the latest regulations. For existing customers of the acquired Swedish solution, services will continue without interruption under fiskaly's ownership. Customers will additionally benefit from seamless access to other European markets through fiskaly's future-proof solutions.

Sven Hammar, CEO InfraSec Sweden AB

"Our business partners can continue to count on the reliable, smart and stable cloud service they've always experienced – nothing changes in their day-to-day operations. At the same time, becoming part of fiskaly, the pan-European network and expertise, allows us to serve new customers across Europe and enables us to drive a new generation of fiscal services for the Nordic Area. This opens exciting new possibilities for us and our partners. We're proud of what we've built and look forward to shaping the future together."

Siri Hyltén-Cavallius, CEO of Yabie Group

"This transaction enables Yabie to sharpen our strategic focus on core point-of-sale software development, accelerating our growth trajectory and market expansion. Simultaneously, InfraSec gains access to fiskaly's specialized expertise and resources in fiscal compliance technology, positioning them for continued growth in the European market. Importantly, Yabie will remain a customer of InfraSec to ensure seamless VAT compliance for our Swedish operations. We're confident this alignment of strategic interests creates value for all parties."

Since June 2024, Verdane, a European private equity firm specialising in growth capital, has been a key partner in fiskaly's mission to become Europe's leading cloud-based VAT compliance provider. Together with Verdane, fiskaly has accelerated its international expansion: in March 2025 fiskaly acquired DF Deutsche Fiskal GmbH to strengthen its leadership in the German market – now the acquisition of InfraSec Sweden AB unlocks new growth opportunities in one of Europe's most digitally advanced retail landscapes. These strategic milestones reflect fiskaly's focus on scalable growth, regulatory innovation, and a pan-European vision for modern fiscal compliance.

About fiskaly

fiskaly develops smart cloud solutions for complex requirements in fiscalization, tax data archiving, electronic receipts and invoices. The company enables compliance with country-specific regulations with secure and easy to integrate APIs. fiskaly's fiscalization solution in Germany is market-leading, operating in more than 1 million cash registers. The company was founded by Johannes Ferner (CEO), Simon Tragatschnig (COO) and Patrick Gaubatz (CTO) in Vienna in 2019. fiskaly is active in Germany, Austria, Spain, Italy, and France, with more than 120 employees. Verdane has been a minority shareholder in fiskaly since 2024.

About InfraSec

InfraSec is Sweden's largest provider of cloud-based VAT compliance solutions for point-of-sale systems. Since 2010, the company has delivered secure, certified VAT tax compliance services for 15 years and also becoming the first vendor to achieve certification for the Swedish SKV 2020:9 standard

About Yabie

Yabie delivers point-of-sale and payment solutions that simplify daily operations for small and medium-sized businesses in food & beverage, retail and services. With an intuitive platform that enables same-day deployment, merchants can manage their entire business through one reliable system and focus on growth. Operating on a subscription and transaction-based model, Yabie serves customers across the Nordic markets and the United Kingdom.
